

RAMAKANT PANDRANGI

SENIOR VICE PRESIDENT, ARCHITECTURE AND ENGINEERING

As senior vice president of architecture and engineering at Verisign, Ramakant Pandrangi leads technology services and infrastructure, as well as the program management office for the technology services organization.

Ramakant has more than 25 years of engineering and technology expertise, and he has led teams to build and deliver software-as-a-service offerings across multiple verticals, including field execution, critical internet infrastructure, network security services, supply chain and payments.

Before rejoining Verisign in 2022, Ramakant served as the chief technology officer of FORM.com where he led the product and engineering teams responsible for the development and delivery of the company's SaaS mobile applications, which merged image recognition AI with task management to assist leading brands' field teams. Ramakant also served as vice president of product management at Rackspace where he brought cloud and managed security services to market and managed service offerings with over \$1 billion in revenue.

Over a 14-year career at Verisign that began in 2001, he has held various leadership roles including vice president of technology and senior director of engineering, leading the teams responsible for delivering Verisign's edge-based services.

Ramakant holds multiple patents and a Bachelor of Engineering degree in computer science from the University of Pune.
